MINING, BUSINESS AND STOCKS

STOCKS GO HIGHER ON THE EXCHANGE

Iron Blossom Takes Other Securities With it in Making New Records.

HEAVIEST DAY THIS YEAR.

Tintic Central is Star Attraction-Few Stocks Show Up on Curb Market.

Under the lead of Iron Blosson which went out after a new high record on the local mining exchange to day, nearly every security on the board got into the active line and registered the biggest day this year. Expecting any minute to hear of the discovery of a good ore body in the Iron Blossom property, the stock was jockeyed with for a start, but on the open board was thrown aside and knocked down to \$2.75 after opening at \$2.80.

after opening at \$2.88.

Nearly every Tintic on the board was among the active members today. East Crown Point registered several good sales, while Tintic Central and Tintic Combination seemed to be prime movers in the bull movement. Of the latter 44,000 shares were sold, while the former registered sales of 88,400 shares. In spite of the dividend declared on Sloux Consolidated, it was weak this morning. The stock sold as low as \$1.30, while the highest point reached was \$1.35, buyer 50 days.

Of late South Iron Blossom has been attracting considerable attention and was dealt in to some extent today at 715 cents.

The heavy assessment of 10 cents a share on Wabash stock sent it down to rock bettom prices this morning. It was offered at 16% cents while a bid of 9 cents was the highest made. On account of the 1½-cent assessment on United Mercur stock it went down and was offered at 3 cents.

ON THE CURB.

Although there was but little stock brought out in the earb market, that which did appear showed considerable activity. Bingham Central-Standard was offered at 28 cents and a bid of 35 cents was made. Cedar was sold for 9 cents and Daly at \$1.25. Standard Copper was sold in the market for 16½ cents.

MAY RENEW ACTIVITY

Fine Ore Revives Interest in Property At Cherry Creek.

At Cherry Creek.

Through the discovery of some good ore on one of the leases on the property owned by John Dern. John Heimrich and W. S. Brown at North Mountain, Cherry Creek. Nevada, interest has been revived in this old property. Several pieces of rock from one of the leases has been received by Mr. Dern and an assay made shows that they run from 200 to 1,600 ounces in silver and from \$11 to \$87 in gold a ton. Although Mr. Dern does not believe that this will show an average value of the big vein that traverses the property, it demonstrates to a certainty that there is considerable good ore in the vergin ground at the property which is being worked under lease.

At present there are three leases on the property. At one time the mine was one of the rich producers of the camp and several good fortunes have been taken out. An engineer who recently returned from the property, declares there is a well defind vein on the property and that with some repair work on the shaft and tunnel, the property could be placed in the property, a list. There is a mill on the property, a

There is a mill on the property, a soc-foot shaft and a tunnel, but these need to be placed in shape to make the property a profitable one.

Leasers on the property are pushing development work with a vigor and it is probable that within a short time there will be more shipments made from this once famous property. At one time a shoot of ore in the mine above the 150-foot level yielded three-quarters of a million dollars.

BLOSSOM HAS ORE

Expect to Open Rich Body by Tonight or at Least by Tomorrow.

STRIKE CASING OF ORE BODY.

Discovery of Ore Would Give Property One Mile of Country in Which to Work.

Fareka, Feb. 13.-Although the Knigh before reaching the rich ore bodies, has ion obtained from a reliable source,

tion obtained from a reliable source, the drift is going under the casing of the ore body and any round of heles may open up the rich vein that traverses the Sioux and Colorado.

Access to the Beck Tunnel, Colorado and Sloux properties has been had at all times by the Knight engineers. Their calculations have been such, it is said, that there is almost an absolute certainty of the ore being reached. It is understood that the capping which is believed to indicate ore was found about midway in the face of the drift. From what is known of the formation, it is believed that the drift is now being sent under the ore body. This is being proven as work progress. This is being proven as work progresses. As it now appears the drift will
be sent ahead for a short distance and
an upraise sent up to catch the body.

It has been known for some time
that the ore in the Sloux Consolidated
to reduce in the direction of the from richest in the direction of the Iron

"BIGGEST KNIGHT MINE."

Josse Knight has always said the Iro

The threatened strike has caused the The inreal-ned strike has caused the greatest excitement in Eureka that has been aroused in some time over a mining property. It will mean more to the East Tintic district than taything that has heretof me been discovered. Tintic central is one of the proper is a that would come in for a shure of the rich lead silver zone.

WORKING ON CONSOLIDATION.

Eureka Idlly, East Tintic Development And Others in Deal.

(Special to the "News,") Provo. Feb. 13.—It is generally un lersteod here that a deal is on for the consolidation of the East Tintle De consolidation of the East Tintic De-velepment company, the Provo Mining company which adjoins it on the north and a number of other small Tintic properties as well as the Eureka Lilly. For some time the matter has been before the various companies, but nothing definite has been decided upon.

The Provo property was until re-cently subject to an option held by the Snyders of Salt Lake City, but this was allowed to expire a little over a week ago. Since then the owners have refused to grant a further option and are believed to be in on the consoli-dation deal.

dation deal.

H. G. Snyder of the Eureka L'lly
was in Provo Wednesday conferring
with President Kellogg of the East
Tintle Development. The result of
their conference was not made known.

TWO NEW COMPANIES.

The Utah-Ophir Mining company filed articles of incorporation this after-The Utah-Ophir Mining company filed its articles of incorporation this afternoon with the county clerk, with a capital stock of \$250,000, divided into shares of the par value of 25 cents each. The company owns the Speculatar lode mining claim and four adjoining claims in Toocie county. The officers are: G. G. Schliep, president: Julius H. Schliep, vice president: Julius H. Schliep, vice president and C. L. Olson, secretary and treasurer. These officers, with A. J. Weber, compose the beard of directors. Of the total amount of stock, 500,600 shares have been set asdde as treasury stock.

Articles of incorporation of the Tintic-Empire Mining company of Provewere filed this afternoon in the office of the secretary of state. The capitalization is \$160,000, divided into shares of 10 cents each. The officers of the company are: Benjamin H. Bullock, president: A. O. Smoot, Jr., vice president and I. O. Smoot, Jr., vice president and I. O. Smoot, Jr., vice president and I. O. Smoot, Jr. vice president and reasurer. They also form the board of directors and own half of the stock in the company. The remainder is held as treasury stock for development annuals and treasury stock for development annuals.

ield as treasury stock for developmen

SMELTER BUILDER BENNETT.

SMELTER BUILDER BENNETT.

B. H. Bennett of Tacona, Wach., is stopping at the Knutsford. Mr. Bennett is the man who superintended the cutire construction of the Gardeld smelter. The works required two years to construct and Mr. Bennett remained here the entire time. He is the proud possessor of a neat diamond ring which was given him by the employes at the conclusion of the work.

Mr. Bennett would not disclose the nature of his business here at this time but stated that Sait Lake is the smelting and metallurgical centre of the western country and his business

CONCENTRATES.

At a meeting of the directors of the MacNamara Mining company of Tonopah, it was decided to place the concern in the dividend paying class. Commencing March I the campany will discuss the con-

Joseph Lippman and Jack Rocklidge left last night for Humboldt station, Nevada, where they will start across the country to their Indian Ike gold property, which they recently came into possession of. The claims are six miles, from the station.

The Iowa-Utah property in the North ar district, Beaver county, has one 140-foot level encountered 14 inches high grade silver and lead ore, the e being filled and crusted with brode of silver. Development work is ing rushed to place the propersy in a shipothes class. the shipping class.

Reports from Fichfield declare the Golden Reef Mining company has sink to feet in the ore body in the main shaft with no sign of the end. Assays from the ore show values of 36 to 58 a ton in gold and from 60 to 72 per cent lead. From the shaft three carbads of ore have already been taken out.

According to W. A. Martin, a Mon-tana man, who has headquarters in New York, the Ohio Copper company mine would be worth \$50,000,000 if it was located in Butte. Mr. Martin with H. C. Carr, a mining engineer from New York, has been inspecting the mine at Bingham, as the guests of Genral Manager Colin McIntosh

COURT NEWS.

WAS NOT A VAGRANT.

Was NOT A VAGRANT.

That some members of the police force are endowed with keen discornment, there is no doubt. It is also true that some are not overburdened with this desirable faculty and it is also apparent that some haven't any sense of discernment whatever, or if they have they don't use it.

At 1:55 this morning Patrolman Kust arrested a young man named J. W. Coons, Kast took his prisoner to the exciton and had him booked for drunk-enness and vagrancy. The man was drunk and admitted it in court this morning, but he-was not a vagrant. Since last October the man has been a steady employe with the truck gang at the Rio Grande Western freight depot and when he appeared in court this morning was armed with a letter from his employers, staring the position he accupied. Coons plended gailty to being drunk and was discharged by Judge Rozman.

THOMAS GLAD TO PAY.

ames H. Thomas admitted he w to say whether he disturbed the peace or not. It appears he went into the Dayton drug store and called for drink. He got it and then refused the pay for it. When the clerk insisted Thomas became very abusive and uscangage not fit to print. He finally pleaded guilty to that charge, but declared he could not remember a thing about it. Judge Bowman fined him & which Thomas was glad to pay.

JUDGMENT BY DEFAULT.

By default, judgment for \$1.058, and costs, was granted to the Western Newspapers Printing company, Osca P. Ball, B. F. Ridd et al., trading a the Western Publishing company, for a press, and printing equipment, on which the plaintiffs held a mortgage. Ac-cording to the complaint the mortgage was given about a year ago, and the judgment covers the full amount with

John Bland, an ebony-hued son John Bland, an ebony-hued son of Ham. faced a rather peculiar charge this morning. He was charged with petit larceny, the particular allegation being that he stole a hunk of mutton valued at \$5, from \$1 Commercial street. Bland smiled broadly when he denied the allegation. Had he been accused of stealing a chicken, or even pork chops, it might have been construed as prima-facia evidence against him, but mutton—never! He will be tried Monday afternoon.

JUDGMENT AGAINST PUBLISHERS

WIFE GRANTED DIVORCE

Minnie E. Pope was granted a decree of divorce this afternoon from Charles I. Pope, desertion being the cause of action. The camplaint alleged that since Nov. 1, 1997, the defendant has been guilty of desertion. They were married in Laramie, Wyo., Feb. 22, 1898. The hubband is employed in Denver and summons was served by publication and the defendant's default entered.

DESERTED WIFE FREED.

DESERTED WIFE FREED.

Florentine Johnson of Murray secured a degree of divorce today in Judge George G. Armstrong's court from Olaf Johnson on the grounds of describen. Mrs. Johnson, who is modest in her appearance, testified that since May 1, 1907, her husband has refused to support her, and that it has been necessary for her to dodomestic work in order to provide for herself. They were married in Murray on Dec. 21, 1896. The decree was granted by default, service having been made by publication. rade by publication.

HIDE THIEVES TRAPPED.

Deputy Sheriff Carlson did a nea Note of detective work today, and as t result, two men. Frank Hutchings and William Morgan, are in the county ant. With charges of farceny hanging over them. Thursday night a number of hides and pelfs were stolen from Hepworth's slaughterhouse Eighth West and Fourth North. Believeing that the thieves would make an attempt to dispose of the plunder, Officer Carlson kept a strict fookout and today was rewarded by running across the men as they offered the hides for sale at the warehouse of Rows, Morris & Summerhays.

STOPOVERS IN CHICAGO. Recommendation is Made to Railroads Entering the Windy City,

the granting of a lo-day stopover privi-lege in Chicago on all forms of first-class and round trip tickets has been made to the rationals forming the Western Passenger association by the executive committee.

Although it is believed that the rec-ommendation will be negatived by the railroads, it is said to be certain that an individual notice of the acceptance of the plan will be served by one of the

onds, with the result that all will fol-

roads, with the result that all will follow and the stopover privilege finally made effective. This ten-day privilege will only apply on tickets within limit. On continuous passage transportation, for instance, from Boston to San Francisco, this privilege will not apply. The holders of such tickets will only, as now, be allowed the customary time for transfer and interchance in Chicago, Pittsburg, Cleveland and Toledo recently obtained this privilege. Now that stopover privilege bids fair to become effective in Western Passenger association territory, it is thought certain by railroad officials that Omaha and other western points will plead for the same condition and obtain it.

Gas

(1915年) 1915年 - 1916年 -

This is just the time of year when you can really obtain a whole lot of comfort at small expense by using Gas Heaters and Gasteam Radiators for the cold and chilly rooms. These little Heaters will heat the room up quickly and the Gasteam Radiators will automatically turn down the Gas flame to just a glow after steam is generated. They can be connected to the regular steam system in a house, so that you
